

Helps protect the body's cells and enhances the benefits of other antioxidants.*

We know that antioxidants are good for us. They help protect our body cells from damage by neutralizing the "free-radical" molecules that bombard us every day. Many fruits and vegetables contain vitamins and minerals known for their antioxidant qualities. Unfortunately, we don't always have time to eat the right amount of these foods, so we take antioxidant supplements.

What we may not know is that rosemary extract, along with other herbs, can help speed up and regenerate the antioxidants we take.* Herbalife's Rose Ox™ is the first of a new generation of antioxidants with a cascading effect. The cascade effect refers to the unique ability to change into a series of progressively active forms, which can help create a dramatically more potent, longer-lasting result.* Rose Ox™ has the further capability to help regenerate other antioxidants, including vitamin E, which do not have this advantage.*

Rosemary is a very versatile herb cultivated from an evergreen-type shrubbery with pine needle-like leaves. The plant features blue flowers and can grow to heights of three to five feet in warm, humid environments.

In addition to possessing antioxidant properties, scientific studies shows that the scent of rosemary also works as a memory stimulant – perfect for busy adults at the office, or even for kids doing their homework.

Other health-related properties of fragrant rosemary include facilitating digestion, soothing menstrual cramps and calming the nerves. Rosemary can even be used for cosmetic purposes such as an effective hair conditioning and strengthening treatment and as an astringent or skin toner.

Discussion Points

- Antioxidant support: Helps promote the antioxidant capabilities of vitamin E.*
- Cascade effect: Rose Ox™ has the unique ability to act in a series of progressively active forms to increase potency and create a longer-lasting antioxidant effect.*
- Rosemary extract: RoseOx™ is made with rosemary extract and blended with an exclusive combination of herbs to work synergistically with other antioxidants.*
- Combine with other products: RoseOx™ can be used in conjunction with the Thermojetics® Weight-Management Programs and Herbalife's entire line of nutritional products.

Did You Know?

The rosemary plant originated in the countries surrounding the Mediterranean Sea; now it grows in North America as well. The leaf has always been used for medicinal purposes. Throughout history, it played a role in European herbalism and popular folklore. Rosemary sprigs were considered a love charm, a sign of remembrance and a way to ward off the plague. In ancient China, rosemary was used for headaches. Rosemary twigs are often used to preserve the freshness of olive oil.

Fast Facts

- A key component of a complete antioxidant program.
- Convenient, once-a-day tablet.
- Important to use when eating or exercising when oxidative stress is greatest.

SUPPLEMENT FACTS

Serving Size: 1 tablet

Servings per container: 30 tablets

	Amount Per Serving	% Daily Value*
Calcium (as calcium carbonate)	140 mg	14%
Exclusive Herbal Blend	620 mg	
Dried Rosemary Extract (Rose Ox™) (leaf)		†
Cruciferous Vegetable Concentrate (broccoli, cauliflower, cabbage and carrot extracts)		†
Dried Turmeric Extract (root)		†
Tomato Concentrate (fruit)		†
