

# Formula 3 Cell Activator®

## Boost your body's energy production\*

Every activity you do—from breathing to dancing to thinking—depends on a constant supply of energy at the cellular level. To ensure you have energy in a readily available form, the cells of your body contain their own tiny powerhouses called mitochondria. Through a series of biochemical processes known as the Krebs Cycle, the mitochondria create energy stores in the form of ATP. Your body then withdraws energy from the ATP stores day and night as needed.

For the Krebs Cycle to function optimally, your body needs a regular supply of essential nutrients and specific factors known as Krebs Cycle intermediates. Many people, because of a poor diet, poor digestion or high levels of stress, fail to supply their cells with enough of these essential nutrients. As a result, their energy production slows and symptoms such as fatigue and immune dysfunction can occur.

Cell Activator® is specifically designed to supply the essential nutrients your cells need to optimize energy production.\* It includes more potassium magnesium aspartate than the original formula, as well as several new concentrated herbal extracts. By taking improved Cell Activator® throughout the day, you can help ensure your cells' energy stores stay full and maximize your use of essential nutrients.\* As a result, you'll have the energy you need to feel great and function at your best.\*

## Discussion Points

- Mineral energizer: Potassium magnesium aspartate supports the Krebs Cycle and helps increase cellular energy and nutrient transport.\*
- Power cycle: Krebs Cycle intermediates help the cells generate ATP to provide the energy your body needs.\*
- Hot pepper: Cayenne contains capsaicin, which helps boost the body's basal metabolic rate.\*
- ATP support: Cordyceps helps increase ATP production and supports stamina and endurance.\*
- Stress relief: Reishi mushroom has adaptogenic properties—enhancing the body's ability to cope with stress.\*
- Rhodiola: Promotes stamina by balancing adrenal activity and may help support a more positive mood.\*
- Combine with other products: Formula 3 Cell Activator can be used in conjunction with the Thermojetics® Weight-Management Programs and Herbalife's entire line of nutritional products.

## Did You Know?

Chinese emperors used to send convoys into eastern Siberia in search of the precious rhodiola which grew high in the mountain peaks. From the highly prized root, an elixir was made that was said to promote longevity and good health.

Chinese athletes use cordyceps to enhance performance and Russian athletes commonly use rhodiola for the same purpose.
